Your Invitation

We invite you to become part of the Friends of Mill Creek. A healthy creek means more than clean water — it means stronger neighborhoods, thriving wildlife, and a vibrant community for everyone to enjoy.

By joining us, you'll have opportunities to take part in hands-on creek cleanups, educational programs, and conservation projects that make a visible difference. You'll also connect with others who share a love for paddling, nature, and preserving the environment for future generations.

Together, we can ensure this treasured waterway continues to be a source of pride and enjoyment for Ripley and beyond.

Our Vision & Mission

The mission of Friends of Mill Creek is to protect and enhance the environmental, recreational, and economic viability of the Mill Creek Watershed through community action, education, and cooperative efforts with residents, businesses, media, and governmental partners.

Vision

Friends of Mill Creek envisions a healthy, sustainable, resilient watershed where people, wildlife, and habitat thrive and that supports biodiversity, building community and inspiring stewardship of watershed resources.

Who Are We

→ Education

Friends of Mill Creek introduces water education and conservation early by engaging with elementary schools. These efforts continue with programs designed for adults and family-focused activities, ensuring everyone can play a role in protecting our watershed

→ Fun Events

Throughout the kayaking season, Friends of Mill Creek hosts activities for all ages. From fun children's events to our relaxing Sunday Floats, it's the perfect way for beginners to experience paddling Mill Creek for the first time.

→ You Can Join Us!

Friends of Mill Creek invites residents, businesses, stakeholders, property owners and recreationists to join us in planning and supporting our events as we work to promote the importance of a healthy watershed. No special skills are required — everyone is welcome!
